

# New! Unique in the world:

Joints out, tiles off, mortar away –  
all with one accessory

Accessories range for multi-cutter power tools.  
Offers solutions for all applications.  
Fits all conventional machines.

**BOSCH**

Invented for life

# High performance

## Efficient work progress

For time and cost saving work:

The comprehensive range of accessories for multi-cutter power tools has been expanded to include a worldwide innovation and additional new products. These Bosch accessories stand for very high cutting speed and particularly long lifetime.

Thanks to the new universal adapter, the Bosch accessories are suitable for multi-cutter power tools from all conventional manufacturer brands.

The positive-engagement OIS 12-point mounting system from Bosch enables precise work and high power transfer. This mounting system also allows for positioning of the accessories every 30 degrees – for particularly high flexibility.

Bosch therefore offers specialist retailers and professional tradesmen a convincing system and optimum accessories.

# Leader in quality and innovation

Made in Switzerland

Leading manufacturer of accessories for power tools, Bosch puts its faith in excellent quality and customer benefit; which is why it develops and produces the accessories itself.

The Bosch high-tech plant in St. Niklaus near to Zermatt/Switzerland has been leading the development and production of sabre saw and jigsaw blades for over 60 years. Thanks to this extremely high level of expertise in cutting technology, the Bosch accessories for multi-cutter power tools excel due to:

- ▶ **Particularly high quality**
- ▶ **Innovative functions**
- ▶ **Unique increased efficiency**

The technology leadership in the bi-metal circular welding technique is deserving of special mention. Thanks to this technical key competence, the wider HSS strip is precisely welded onto the thinner HCS base body. As a result, the teeth are free-standing. This especially benefits the accessories for multi-cutter power tools:

**For high-quality cuts at the best price/performance ratio.**

# The innovations from Bosch

Powerful solutions for all conventional applications

Bosch offers innovative solutions and a comprehensive range of accessories for all conventional applications with multi-cutter power tools. For time-saving and precise work with all conventional brands of multi-cutter power tools.

**Only the 3Max** grout and mortar remover combines all conventional grout and mortar removal applications in one accessory, therefore offering true, innovative increased efficiency and a particularly long lifetime.

Routing joints on wall and floor tiles.

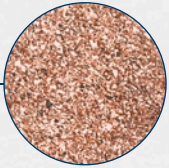

Removing mortar or tile adhesive – even right into corners.

**High-quality tungsten carbide grit coated cutting edge**

- ▶ For routing joints on wall and floor tiles
- ▶ Also suitable for routing grooves in porous concrete and cutting particularly abrasive materials

**High-quality tungsten carbide grit coated sanding plate**

- ▶ Ideal for removing mortar and tile adhesive
- ▶ Also suitable for removing carpet residues from a mineral surface

The 3Max grout and mortar remover combines a segment blade with a Delta-RIFF blade in its drop-shape design. As a result, the 3Max grout and mortar remover can be used both to rout the grout out from around a damaged tile and also to rasp away the mortar or tile adhesive without having to change the accessory. This enables a new tile to be changed after tiling without any problems.

The carbide-coated tip (sanding/rasping finger) also enables grout and mortar to be removed cleanly right into corners.

The 3Max grout and mortar remover also excels in use due to its particularly long lifetime.

Routing joints right into 90 degree corners.

**The BIM-TiN segment and round saw blades** have an exceptionally long lifetime in abrasive materials, non-ferrous metals, wood with nails, and sheet metals up to approx. 1 mm.

**Bi-metal with additionally titanium-nitride-coated tooth strip**

► Particularly wear-resistant

**Pointed segment saw blades**

► For precise work right into corners

**Bi-metal circular welding technique**

► Free-standing teeth for easy cutting and to prevent jamming

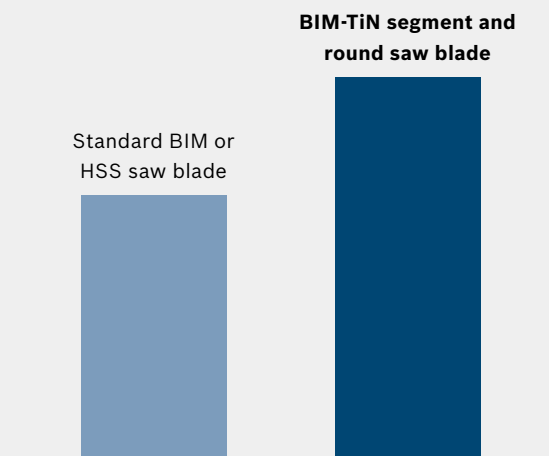

Cutting wood with nails.

Cutting sheet metals up to approx. 1 mm thick, with minimal flying sparks.

Removing old window putty right into corners – without breaking the glass.

**Over 30% longer lifetime**

Tests by Bosch. Cement-bonded light-concrete board Fermacell H2O.

The new BIM-TiN segment and round saw blades have an exceptionally long lifetime. The tooth strip, which is additionally coated with titanium nitride, makes the saw blades particularly wear-resistant to abrasive materials such as epoxy, fibreglass, cement panels and also to wood with nails. The BIM-TiN saw blades are also well suited to non-ferrous metals and sheet metal up to approx. 1 mm.

Thanks to the circular welding technique, which is a key competence of Bosch, the wider HSS strip is precisely welded onto the thinner HCS base body. As a result, the teeth are free-standing.

**For high-quality cuts.**

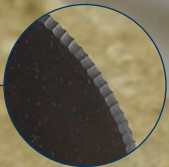

**The bi-metal serrated segment blade, 100 mm,** is particularly suitable for fast, clean and precise cutting to size of insulation and other soft materials.

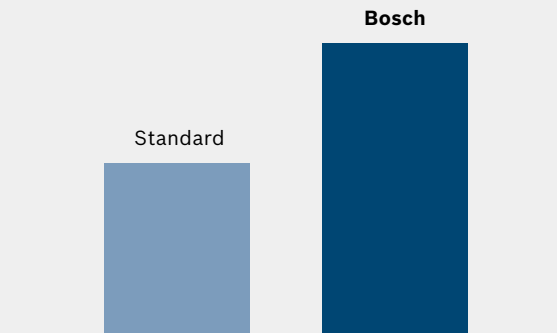

- ▶ The serrated edge enables a quick, clean and precise cut in insulation materials
- ▶ The workpiece material is not squeezed and keeps its shape

- ▶ **BIM Technology for a long lifetime**
- ▶ Also resistant to particularly abrasive insulation materials
- ▶ Also less blade damage from collision with adjacent materials

**Over 40% faster in insulation materials**

Tests by Bosch in heat insulation and sound dampening panels.

Flush cutting to length of protruding insulation material. Also particularly suitable for cutting other soft materials such as carpet, rubber, leather or cardboard.

**The Diamond-RIFF segment saw blade, 85 mm,** with long lifetime and high cutting speed is particularly suitable for hard and abrasive materials such as grout, fibreglass or epoxy.

Routing joints on wall tiles.

Routing a recess in epoxy/glass fibre reinforced plastic, e.g. in a boat's hull.

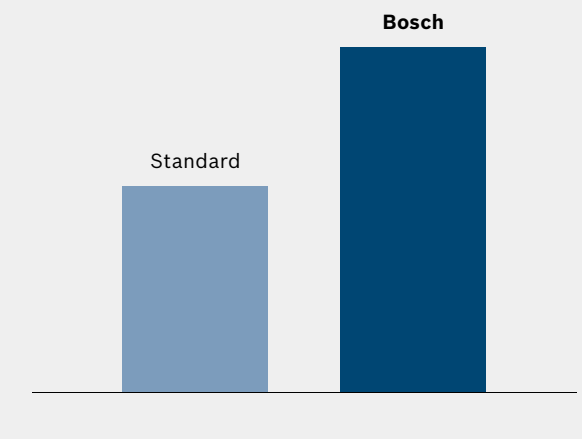

Smaller cutouts can also be routed in soft wall tiles.

The Bosch diamond blade offers a longer lifetime than conventional Diamond-RIFF saw blades for multi-cutter power tools thanks to its outstanding Diamond-RIFF compound (diamond grit).

Moreover, the diameter of 85 mm (market standard only 65 mm) and the optimised Diamond-RIFF compound ensure a higher cutting speed.

**40% longer lifetime**

Tests by Bosch by routing grout.

**Thanks to the universal adapter,** the oscillating accessories from Bosch fit all conventional multi-cutter power tools.

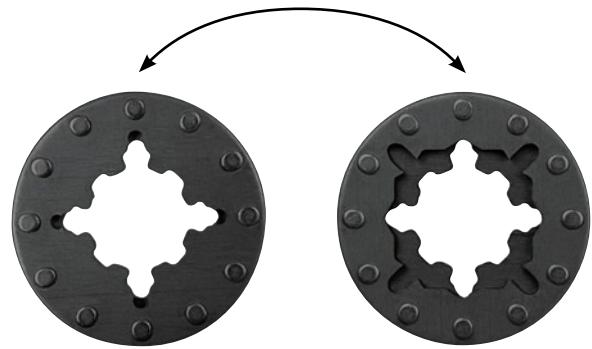

Easy mounting on the toolholder of a conventional multi-cutter power tool.

Attach the desired Bosch accessory

and start working.

With the new Bosch universal adapter, the accessories fit all conventional multi-cutter power tools. There are therefore no system restrictions. The positive engagement guarantees optimum power transfer.

Bosch accessories excel due to their excellent price/performance ratio.

For FEIN Multimaster FMM Q,  
Craftsman Multi-tool.

For Rockwell and Worx  
Sonicrafter, Mastercraft  
Multi-Cutter, Dremel Multi-  
Max, Multi2Pro Multi-tool,  
Rigid Multi-tool.

# Accessories for multi-cutter power tools – **perfect trimming, adjusting and repairing**

The accessories in the range for multi-cutter power tools are versatile due to the cutting principle. The appropriate accessory is therefore available for every application – be it sawing, routing, rasping, cutting, scraping, sanding or polishing, even in hard-to-reach areas.

**For time-saving and precise work with all brands of multi-cutter power tools.**

## **Tile or bathroom renovation**

Bosch accessories make light work of even the hardest materials. Their applications range from routing joint cement, to removing mortar or tile adhesive, through to additionally cutting a cable duct in the wall.

## **Flooring work**

Whether door frame, parquet, laminate, carpet residues or mouldings – Bosch accessories make quick and easy cuts everywhere. For example, they enable a door frame to be cut to length on the floor in no time, cutouts to be made in parquet and laminate in an instant, and skirting boards to be shortened quickly.

### Trimming and adjustment work

Bosch accessories work with precision right into the angle. Ideal for recesses and deep plunge cuts in wood, abrasive wooden materials or plastics.

### For all work with insulation materials and sealants

The serrated segment blade in BIM quality cuts insulation and other soft materials easily and precisely.

The universal joint cutter is especially suitable for removing soft expansion joints and window putty.

### Automobile and ship building

The oscillating Bosch accessories for multi-cutters also offer solutions for work on land and at sea. From sawing work in epoxy and fibreglass parts through to polishing work in inaccessible areas.

## Tile and bathroom renovation. The specialists for hard applications.

The oscillating multi-cutter accessories from Bosch enable all types of sanitary applications to be done cleanly, precisely and without much dust formation.

► **For time-saving and precise work with all brands of multi-cutter power tools**

Effortless routing of 1/8" and 1/16" joints on wall and floor tiles.

# BIM serrated segment blade

## The expert for insulation materials

Quick, clean and precise cutting;  
material is not squeezed

### Cutting blades

- ▶ **Appropriate for** Bosch GOP 10,8 V-LI; GOP 250 CE Professional; PMF 10,8 LI; PMF 180 E; FEIN Multimaster FMM 250 (10 mm diameter)
- ▶ Appropriate for various commercially available multi-cutters when used with universal adapter

Product properties			Ordering information			
Diameter [mm]	Width [mm]	Length [mm]	Part number	Packaging type	Pack quantity	Minimum order quantity
						Barcode 3 165 140 ...

#### ACZ 100 SWB

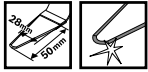

BIM serrated segment blade

- ▶ Flush cutting to length of protruding insulation material, especially polystyrene
- ▶ Cutting insulation panels to size (e.g. Flumroc floor panel/sound insulation panel)
- ▶ Cutting soft materials (e.g. cardboard, carpet, rubber, leather...)

100	-	-	2 608 661 693	PC1b	1	1	546 737
-----	---	---	---------------	------	---	---	---------

## Cutting blades

--------------------	--------------	-------------	----------------	---------------	------------------------	--------------------------

## 23-piece universal set

Basic applications combined in one set (sawing, sanding and scraping)

**Suitable for** wood and metal

BIM segment saw blade Wood and Metal, ACZ 85 EB (1x)	<b>2 608 661 694</b>	PC1b	5	1	555 203	
BIM plunge-cutting saw blade Wood and Metal, AIZ 28 EB (1x)						
HCS scraper, ATZ 52 SFC (1x)						
Red Wood-top sanding sheet (10x)						
White Paint sanding sheet (10x)						

## 4-piece tile set

Versatile tile set for renovation and reconstruction work (e.g. routing joints on wall and floor tiles, removing mortar or tile adhesive, routing smaller cutouts in soft wall tiles)

HM-RIFF segment saw blade, ACZ 85 RT (1x)	<b>2 608 661 695</b>	PC1b	4	1	555 210	
HM-RIFF sanding plate, AVZ 78 RT (1x)						
HCS scraper, ATZ 52 SC (1x)						
BIM plunge-cutting saw blade Metal, AIZ 20 AB (1x)						

## 4-piece floor/installation set

Versatile set for floor/installation work (e.g. cutting a door frame to length on the floor, cutting out laminate/parquet, plunge cuts in laminated panels or wood, cutting recesses in furniture components)

BIM segment saw blade Wood and Metal, ACZ 85 EB (1x)	<b>2 608 661 696</b>	PC1b	4	1	555 227	
BIM plunge-cutting saw blade Hard Wood, AIZ 32 BB (1x)						
HCS plunge-cutting saw blade Wood, AIZ 32 EC (1x)						
HCS scraper, ATZ 52 SFC (1x)						

# Universal adapter

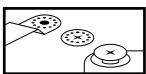

Simply mount the adapter, attach the accessory and start working

Mount the adapter on the toolholder of a conventional multi-cutter power tool and attach the desired Bosch accessory.

## Adapter

<b>Product properties</b>	<b>Ordering information</b>
	<i>Part number</i> <i>Packaging type</i> <i>Pack quantity</i> <i>Minimum order quantity</i> <i>Barcode</i> 3 165 140 ...

### Universal adapter

- ▶ **Appropriate for** various commercially available multi-cutters
- ▶ **NEW:** With the help of the universal adapter, the Bosch accessories fit various commercially available multi-cutters (oscillating power tools)
- ▶ The following interfaces are supported by the universal adapter: FEIN Multimaster FMM Q, Rockwell/Worx Sonicrafter, Craftsman Multi-Tool, Mastercraft Multi-Cutter and Dremel Multi-Max
- ▶ Positive-engagement universal adapter guarantees optimum power transfer

	<b>2 608 000 468</b>	PC1b	1	1	594 738
--	----------------------	------	---	---	---------

## Cordless Multi-Cutter 10.8 Volt

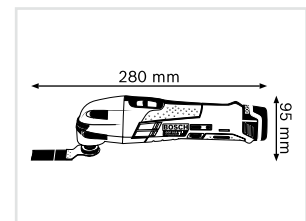

**GOP 10,8 V-LI Professional**

### Perfect trimming, adjusting, repairing

- ▶ Wide range of applications such as plunge cuts, flush sawing and sanding due to a comprehensive range of accessories
- ▶ Excellent handling due to compact design and weight of only 1.0 kg
- ▶ Up to 20,000 oscillations per minute for the same professional performance as comparable mains-powered tools

Technical Data			
Part number	0 601 858 ...		
Battery voltage	10.8 V

## Multi-Cutter

**GOP 250 CE Professional**

### A universe full of possibilities – The blue problem solver

- ▶ Powerful 250-watt motor with Constant Electronic for constant work progress in every application
- ▶ Slim grip circumference for more comfortable working in precision applications and continuous use
- ▶ Easy, precise positioning on the workpiece due to oscillating motion. This enables accurate cutting and prevents damage to high-quality work materials

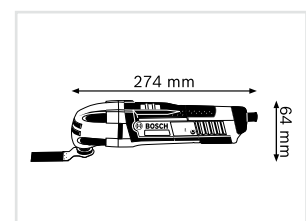

### Other features

- ▶ Speed preselection for perfect adjustment to suit different accessories and work materials

**New!**

# Accessories for Work Safety

## Protective goggles

### Protective goggles

► Fully transparent, can be worn over glasses

<b>EN 166</b>	<b>2 607 990 041</b>	P1d	1	1	093 705
---------------	----------------------	-----	---	---	---------

## Protective masks

### Fine dust mask

► Protects against non-toxic fine dust, for use by do-it-yourselfers, for work such as drilling, chiselling and cutting. Unsuitable protection against poisonous gases and vapours!

<b>EN 149 FF P1</b>	<b>2 607 990 032</b>	P1d	2	1	093 613
---------------------	----------------------	-----	---	---	---------

### Fine dust mask

► Protects against low level poisonous particles, fine dust, grinding dust when sanding wood and concrete; e.g. dust from sanding paint. Same as class FF P1 but with a higher degree of protection.

<b>EN 149 FF P2</b>	<b>2 607 990 034</b>	P1d	2	1	093 637
---------------------	----------------------	-----	---	---	---------

### Fine dust/odour mask

► For low level poisonous particles, foul organic smells and particles (paint spray mask). With exhalation valve for easier breathing. With integrated activated charcoal filter for reduction of smells.

<b>EN 149 FF P2</b>	<b>2 607 990 036</b>	P1d	2	1	093 651
---------------------	----------------------	-----	---	---	---------

## Ear protectors

Product properties	Ordering information
	<i>Tested to</i> <i>Part number</i> <i>Packaging type</i> <i>Pack quantity</i> <i>Minimum order quantity</i> <i>Barcode</i> 3 165 140 ...

### Ear protectors

- ▶ Soundproofing level 19 dB (A)
- ▶ Adjustable plastic bar. All parts washable. L rate 14 dB, M rate 20 dB, H rate 27 dB, SNR rate 23 dB

EN 352	2 607 990 042	P1d	1	1	093 712
--------	---------------	-----	---	---	---------

### Ear protectors

- ▶ Soundproofing level 24 dB (A)
- ▶ Folding, padded, adjustable head bar. L rate 17 dB, M rate 25 dB, H rate 32 dB, SNR rate 28 dB

EN 352	2 607 990 043	P1d	1	1	093 729
--------	---------------	-----	---	---	---------

### Ear plugs

- ▶ In plastic box. L rate 31 dB, M rate 32 dB, H rate 32 dB, SNR rate 34 dB

EN 352	2 607 990 044	P1d	10	1	093 736
--------	---------------	-----	----	---	---------

## Protective gloves

- ▶ Hands also need to be protected, e.g. stones can become missiles during breaking work.

Product properties	Ordering information
	<i>Part number</i> <i>Packaging type</i> <i>Pack quantity</i> <i>Minimum order quantity</i> <i>Barcode</i> 3 165 140 ...

### Protective gloves

- ▶ Made of grey cowhide leather, leather thickness 1.2 mm, back of hand made of twisted cotton, finger nail, wrist and pulse protection, sewn-in rubber insert, plastic-coated twisted sleeve, inside palm lining, length 26 cm, men standard size 10.

	2 607 000 134	P1d	1	1	017 954
