Robert Bosch Power Tools GmbH

Revision date: 17.02.2023 Revision No: 1,2 GLUE STICK 2 609 256 D30 / 2 609 256 D31 / 2 609 256 D32

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

GLUE STICK 2 609 256 D30 / 2 609 256 D31 / 2 609 256 D32

Further trade names

Bosch:

2 609 256 D30 / 2 609 256 D31 / 2 609 256 D32.

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture

Construction adhesive

1.3. Details of the supplier of the safety data sheet

Company name: Robert Bosch Power Tools GmbH

PT/EEI

Place: 70538 Stuttgart / GERMANY

Internet: www.bosch-pt.com
Responsible for the safety data sheet: sds@gbk-ingelheim.de

1.4. Emergency telephone number: INTERNATIONAL: +49 - (0) 6132 - 84463, GBK GmbH (24h - 7d/w - 365d/a)

England and Wales: NHS Direct - 0845 4647; Scotland: NHS 24 - 08454 24 24

24

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008) Not a hazardous substance or mixture.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008) Not a hazardous substance or mixture.

2.3 Other hazards

During use, the product is applied at elevated temperatures, exposing the user to the possibility of severe burns unless suitable precautions are taken. Exposure to high levels of fumes at application temperature may cause irritation of the eyes and respiratory tract. Product may accumulate static charges. If adhesive is overheated, especially using a naked flame it will burn. Excessive fume indicates overheating.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Chemical characterization

Hot melt adhesive containing thermoplastic polymers, tackifying resins, and antioxidant. Contains no hazardous ingredients or impurities.

SECTION 4: First aid measures

4.1 Description of first aid measures

Skin Contact

First aid not normally required for contact with product at ambient temperature. For contact with hot product, plunge affected part into cold water until adhesive thoroughly solid and pain eases. Do not attempt to remove adhesive. Seek medical attention. Adhesive may be softened with olive oil or liquid paraffin.

When hot melt removed treat as normal burn.

Eye contact

Cold pellets may cause abrasions. If hot product enters eye flush area with large quantity of clean cold water. Urgently seek medical assistance.

Robert Bosch Power Tools GmbH

Revision date: 27.02.2023 Revision No: 1,2

00635-0023

No inhalation hazard from cold product. Remove to fresh air if excess fume from hot product inhaled. Treat any irritation symptomatically. If necessary, seek medical attention.

Ingestion

If accidentally swallowed obtain immediate medical attention. Keep at rest. DO NOT induce vomiting. Give large quantities of water but never give anything by mouth to an unconscious person.

4.2 Most important symptoms and effects, both acute and delayed

Direct contact with molten adhesive will lead to severe thermal burns. Adhesive should be cooled under cold running water. Do not attempt to remove the adhesive.

4.3 Indication of any immediate medical attention and special treatment needed

Treat as thermal burns

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media:

Dry chemical powder

Carbon dioxide

Earth

Sand

Foam

Unsuitable extinguishing media: Water

5.2 Special hazards arising from the substance or mixture

Combustion Products: Carbon dioxide, Carbon monoxide, Acetic acid, Smoke, Low molecular weight hydrocarbons

5.3 Advice for firefighters

Water should not be used as burning product may float on water.

Self-contained breathing apparatus with a gastight suit should be used when close proximity to the substance or its vapours is likely.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

6.1.1 For non-emergency personnel:

Protective equipment: Wear gloves and eye protection when handling molten or hot products.

Emergency procedures: Spilled material will present a slippage hazard on hard surfaces.

If hot product is spilt, allow to cool and take up mechanically. Sweep up spilled material placing in suitable containers for reuse or disposal.

6.1.2 For emergency responders: As above

6.2 Environmental precautions

Prevent material from entering watercourses or sewers. Advise authorities if material enters watercourses or sewers.

6.3 Methods and material for containment and cleaning up

6.3.1 For containment: If molten, allow to solidify

6.3.2 For cleaning up: Sweep up or vacuum up spillage and collect in suitable containers for

disposal.

Robert Bosch Power Tools GmbH

Revision date: 27.02.2023 Revision No: 1,2

00635-0023

material, as well as those materials and items employed in the clean-up of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local

or national requirements.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

No special requirements. When emptying bulk bags product may accumulate static charge.

7.2 Conditions for safe storage, including any incompatibilities

Store in a clean dry place at temperatures between 5°C/40°F and 30°C/85°F with containers kept closed. Use oldest stock first.

7.3 Specific end use(s)

Intended for use only as industrial adhesive.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Nominal industrial hygiene measures should be sufficient. Where contact may occur with hot materials, wear thermal resistant gloves, arm protection and a face shield. During processing adequate ventilation is required. The use of local exhaust ventilation is recommended to control fumes.

8.2 Exposure controls

Engineering measures

Ensure adequate ventilation, especially in confined areas.

Minimize workplace exposure concentrations.

Personal protective equipment

Wear the following personal protective equipment:

Eye protection: Safety glasses
Hand protection Heat resistant gloves

Remarks: Wash hands before breaks and at the end of workday.

Skin and body protection: Skin should be washed after contact.

Respiratory protection: No personal respiratory protective equipment normally required.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance: Solid

Colour: Clear/off-white

Odour: No significant odour at ambient temperature

 $\begin{array}{lll} \mbox{Odour Threshold:} & \mbox{No data available} \\ \mbox{pH:} & \mbox{applicable} \\ \mbox{Melting point/freezing point:} & \mbox{>75°C/165°F} \\ \mbox{Initial boiling point and boiling range:} & \mbox{Not applicable} \\ \mbox{Flash point:} & \mbox{>200 °C/390 °F} \\ \end{array}$

Method: closed cup

Evaporation rate: Not applicable

Flammability (solid, gas): Combustible, but not flammable

Upper explosion limit:

Lower explosion limit:

Vapour pressure:

Relative vapour density:

No data available

Not applicable

No data available

Print date: 27.02.2023 GB - EN Page 3 of 6

Robert Bosch Power Tools GmbH

Revision date: 27.02.2023 Revision No: 1,2

00635-0023

Relative density: Not determined

Solubility(ies)

Water solubility: Insoluble in water
Partition coefficient: n-octanol/water: No data available
Auto-ignition temperature: >200°C/390°F
Decomposition temperature: No data available

Viscosity: Solid at ambient temperatures

Explosive properties: None Oxidizing properties: None

9.2 Other information

Molecular weight: No data available

SECTION 10: Stability and reactivity

10.1 Reactivity

Limited chemical reactivity. No hazardous chemicals are known to be formed during the use of this product. Adding water to molten product will cause foaming and spitting.

10.2 Chemical stability

Under storage at normal ambient temperatures (-40°C/-40°F to + 40°C/105°F), the product is stable

10.3 Possibility of hazardous reactions

None known

10.4 Conditions to avoid

Storage below 5°C/40°F and above 30°C/85°F

10.5 Incompatible materials

None known

10.6 Hazardous decomposition products

Does not decompose when used for intended uses

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity: Not determined Irritation: Not determined Corrosivity: Not determined Sensitisation: Not determined Repeated dose toxicity: Not determined Carcinogenicity: Not determined Mutagenicity: Not determined **Toxicity for reproduction:** Not determined

Other information

Inhalation: Negligible hazard at ambient temperature. Vapour at elevated temperature may be irritating to the eyes and respiratory tract.

Skin contact: Negligible hazard at ambient temperature. Contact with hot material will cause thermal burns which may be severe depending upon amount.

Eye contact: Exposure to hot material will cause thermal burns which may be severe. Pellets may scratch eye surface or cause mechanical irritation.

Ingestion: Not determined but believed to have a low order of toxicity.

SECTION 12: Ecological information

12.1 Toxicity

Not known to have any adverse effects

12.2 Persistence and degradability

Not known to have any adverse effects

Robert Bosch Power Tools GmbH

Revision date: 27.02.2023 Revision No: 1,2

00635-0023

12.3 Bioaccumulative potential

Not determined

12.4 Mobility in soil

Not determined

12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB

12.6 Other adverse effects

Not determined

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Suitable methods of disposal are incinerators with energy recovery or in approved landfill sites in accordance with EC, national and local regulations. Care should be taken to ensure compliance with EC, national and local regulations

SECTION 14: Transport information Land transport (ADR/RID); Marine transport (IMDG); Air transport (ICAO-TI/IATA-DGR); Inland waterways t

14.1. UN number:

No hazardous material as defined by the transport regulations.

14.2. UN proper shipping name:

No hazardous material as defined by the transport regulations.

14.3. Transport hazard class(es):

No hazardous material as defined by the transport regulations.

14.4. Packing group:

No hazardous material as defined by the transport regulations.

14.5. Environmental hazards

No hazardous material as defined by the transport regulations.

14.6. Special precautions for user

No hazardous material as defined by the transport regulations.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

No hazardous material as defined by the transport regulations.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No 649/2012 of the European Parliament and the Council concerning the export and import of dangerous chemicals: Not applicable

REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59): Not applicable

The components of this product are reported in the following inventories:

REACH: All ingredients (pre-)registered or exempt.

TSCA: All chemical substances in this material are included on or exempted from listing on the TSCA Inventory of Chemical Substances.

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

Abbreviations and acronyms

ADR = Accord européen relatif au transport international des marchandises Dangereuses par Route

RID = Règlement concernant le transport international ferroviaire de marchandises dangereuses

ADN = Accord européen relatif au transport international des marchandises dangereuses par voie de navigation intérieure

IMDG = International Maritime Code for Dangerous Goods

Robert Bosch Power Tools GmbH

Revision date: 27.02.2023 Revision No: 1,2

GLUE STICK 2 609 256 D30 / 2 609 256 D31

00635-0023

IATA/ICAO = International Air Transport Association / International Civil Aviation Organization

MARPOL = International Convention for the Prevention of Pollution from Ships

IBC-Code = International Code for the Construction and Equipment of Ships Carrying Dangerous Chemicals in Bulk

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

REACH = Registration, Evaluation, Authorization and Restriction of Chemicals

CAS = Chemical Abstract Service

EN = European norm

ISO = International Organization for Standardization

DIN = Deutsche Industrie Norm

PBT = Persistent Bioaccumulative and Toxic

LD = Lethal dose

LC = Lethal concentration

EC = Effect concentration

IC = Median immobilisation concentration or median inhibitory concentration

Further Information

Data of items 4 to 8, as well as 10 to 12, do partly not refer to the use and the regular employing of the product (in this sense consult information on use and on product), but to liberation of major amounts in case of accidents and irregularities.

The information describes exclusively the safety requirements for the product(s) and is based on the present level of our knowledge.

The delivery specifications are contained in the corresponding product sheet.

This data does not constitute a guarantee for the characteristics of the product(s) as defined by the legal warranty regulations.

(n.a. = not applicable; n.d. = not determined)

(The data for the hazardous ingredients were taken respectively from the last version of the sub-contractor's safety data sheet.)
